

Bring new guests to your counter.

goZaika helps curious diners discover a limited, chef-curated BAM Bag, reserve it, and pick it up directly from your restaurant.

WHY RESTAURANTS USE GOZAIKA

1

Be discovered

Introduce your kitchen to diners looking for something worth showing up for.

2

Create a counter moment

Pickup brings the guest into your restaurant - with no delivery handoff.

3

Stay in control

You set the quantity, pickup window, and required food disclosures.

ONE SIMPLE PICKUP FLOW

01 Publish

Create a limited BAM Bag release with timing and disclosures.

02 Reserve

A diner discovers and reserves the pickup in goZaika.

03 Pick up

Your team verifies the handoff at the counter.

Book a 15-minute partner walkthrough.

Restaurant Partner Brief | v1.0 | 21 June 2026 | Front

A controlled pickup workflow.

Built around restaurant control, clear disclosures, and a clean counter handoff.

YOU STAY IN CONTROL

- Your restaurant name and story stay visible.
- You choose when and how many BAM Bags to release.
- Pickup windows protect kitchen rhythm.
- Dietary and allergen information is declared before purchase.
- You can pause releases when operations require it.

PILOT READINESS

- ☐ Valid FSSAI and operating details
- ☐ Reliable pickup-window staffing
- ☐ Accurate dietary and allergen disclosures
- ☐ A named owner for releases and handoffs

WHAT GOZAIKA IS

- A restaurant-led discovery channel
- Limited, planned pickup releases
- A simple QR-led counter handoff
- Curated discovery without clearance framing

WHAT IT IS NOT

- A delivery marketplace
- A public discount menu
- A promise about specific bag contents
- A replacement for your restaurant brand

Commercial terms are discussed during partner qualification.

No POS integration is required for the initial operating model.
